

Prestressing of Precast Concrete

Meet strict Health & Safety regulations

Ensure the competence of your employees and reduce accidents in the workplace.

Upon undertaking the training to meet strict Health & Safety regulations your employees will be issued with a certificate and card to carry with them on-site.

This Certification of Training Achievement (CTA) scheme is designed and administered only by Proskills Global.

You will be awarded:

1.

Certificate of Training Achievement

Take your trainees to the next level with practical and written assessment of their skills and proving their capability at the end of the course.

Our award winning certification services include administration, embossing and excellence in customer service. All employee data is safe guarded under the Data Protection Act.

› £30 (+VAT) per certificate

2.

Certificate of Training Achievement Competence Card

Alongside the certificate your trainees will receive a competence card which they can carry on site at all times.

The card lists all training achievements, including expiry dates, as well as the company name, the trainee's name and photo.

› £20 (+VAT) per card

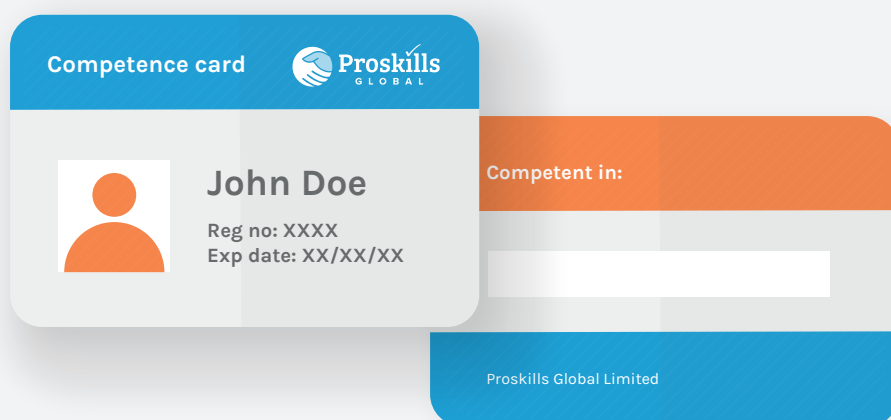

Training Partners

Our training partners have a reputation for excellence in prestressing training with years experience and technical know-how. They undergo regular audits to ensure their training is delivered to our quality assured standard.

Our certificates are produced to a high quality standard and are issued under strict assurances.

Your competence card: (85.60 × 53.98 mm)

The National Stamp of Approval

Your certificates will be issued with the Proskills Global branding. These are nationally recognised and come with the reputation for excellence in training.
